Faculty Guidelines

1. Admission to the GDBBS Training Faculty

Training faculty must be full-time, Emory (or Emory-affiliated) faculty, should have demonstrated expertise in the fields of training and must have, or have the prospect of acquiring, sufficient extramural funding to ensure support of the students' research projects. Examples of documented expertise include doctoral and/or postdoctoral training in the field, publications in major peer reviewed journals of the areas represented by the Program, and membership in professional society(s).

Application for membership to the training faculty in a GDBBS Program should be made to the Executive Committee of the Program. After review of the application and an assessment of past or anticipated participation of the candidate in graduate training, the committee will decide to decline or approve admission of the applicant. Often such consideration includes the presentation by the applicant of a publicly advertised research seminar to the Program faculty and students and a vote of the Program faculty by secret ballot. If the application is approved by the Executive Committee, a letter from the Program Director indicating the approval of the candidate by the Program is to be forwarded to the Division Director along with the rest of the application materials. The following items constitute a complete application: a current curriculum vitae, an NIH PHS 398-style four page Biosketch, indication of current, past and pending funding, a letter from the candidate requesting admission and indicating his/her desire to become a training faculty member and willingness to participate in duties thereof, a letter of support from the Departmental Chairperson, information on past experience in training doctoral students or postdoctoral fellows, a list of planned or anticipated collaborative activities with Program faculty, a one page description of the candidate's research and a one sentence summary of his/her major research efforts suitable for use in the recruiting Viewbook, and the candidate’s EMPL ID. The candidate should explicitly indicate in which graduate level courses he/she has taught and/or in which specific courses he/she would volunteer to participate. An application checklist is included in the appendix. According to Laney Graduate School guidelines, the application of new members must be forwarded to the Dean of the Laney Graduate School for approval.

2. Program Membership Limit

GDBBS faculty members are limited to membership in two Programs. Application for admission to a second Program requires only a letter from the Program Director on behalf of the Program Executive Committee requesting such an appointment and a letter from the faculty member detailing how they will contribute to the program. In rare circumstances a Faculty Member may request appointment in more than two programs by submitting supporting letters from the Program Directors to the GDBBS Director and Laney Graduate School Dean. Such a request will only be approved if there is persuasive evidence that the Faculty Member will contribute in a significant way to the mission of all programs involved.
3. Level of Faculty Appointments

The three types of GDBBS membership are Full, Associate, and Adjunct Members. The definition of membership rights and responsibilities are as follows:

- **Full Members** must be tenure track faculty at Emory University in good standing. They have full rights and privileges, including the right to serve on any GDBBS Committee or in an administrative position, and to act as Dissertation Advisors in Programs where they hold this rank.

- **Associate Members** must be faculty at Emory University. These faculty members have the rights and privileges of full members, except they may only serve as a Dissertation Co-Advisor. Generally, this membership would be for Research Track faculty, for faculty who may not take a student because of indebtedness to the Stipend Reserve Fund or those who have been judged to be non-participatory during the annual Program Review of participation.

- **Adjunct Members** must be faculty or staff of another institution and must have credentials similar to those of our Full Members. They will have all the rights and privileges of full members, except that they may only serve on the University or GDBBS committees ex officio and they may only serve as Dissertation Co-Advisors.

The application for membership will remain the same, except the rank of the proposed appointment must be specified in the letter from the Program Director. All listings of GDBBS faculty MUST contain the rank of appointment and a definition of these ranks. A Full Member must direct all Dissertations, even if the research is being done in the laboratory of an Associate or Adjunct member.

After consideration by the Program Executive Committee, the Program Director should forward the request for appointment (with accompanying documentation) to the Division office with a recommendation for approval. If the request meets Division requirements, the Division Director will ask the Dean of the Laney Graduate School to appoint the candidate as a member of the graduate faculty in the Division of Biological and Biomedical Sciences, affiliated with the Program that has submitted the request.
